Subject: Atlantic Coast Pipeline

Please do not grant NC 401 water quality certification for the Atlantic Coast Pipeline. We MUST move away from use of fossil fuels. No amount of short term gain for a few people can justify the environmental impact on our air, water and ecological systems that this pipeline will have over the long term. Building the pipeline allows us to continue an unhealthy and burdensome addiction to fossil fuels that we must stop if we want to preserve the resources that truly sustain life: air, water, soil and thriving communities.

Thank you,

Mary Beth Berkley
